

DataView VR Releases DataView Version 2.0

NEW YORK, Dec. 04, 2018 -- DataView VR, LLC (www.DataViewVR.com), a New York City based Virtual & Augmented Reality (VR & AR) analytics and presentation software company targeting data-intensive industries, announced that it has released DataView Version 2.0 for commercial deployment.

DataView is a comprehensive virtual workspace, designed to provide insight into complex data, improve productivity, and facilitate virtual collaboration and presentation.

DataView's "Workspace of the Future" leverages Virtual Reality (VR) and Artificial Intelligence (AI) to provide both two-dimensional and multi-dimensional tools, allowing analysts in any industry to develop deeper insights, faster, and to share their work virtually with anyone, in any location. DataView also provides functionality specifically tailored to the financial community, particularly investment analysts.

Founder and General Manager Andy Maggio stated: "As available data becomes increasingly complex, analysts need to leverage cutting edge technology. With DataView, users can now harness the combined power of Virtual Reality and AI to process and analyze information, creating deeper insights, faster, and transforming presentation and collaboration."

DataView VR is led by founders Andy Maggio, a former Morgan Stanley investment executive, and Brennan McTernan (CTO), former President of Megatouch with 30+ years of VR/AR software development experience.

DataView provides a plethora of VR-based functionality. The DataView "Hyper Desk" provides users with eighteen virtual desktop monitors, the ability to create multiple customized "Data Rooms" based on topic, and drag & drop chart creation capability, while the DataView multi-dimensional visualization space displays optimal predictive models for any given data set and allows users to create their own six-dimensional representations, allowing them to craft predictive models and analyze outliers.

DataView VR is a part of the Glimpse Group, a Virtual and Augmented Reality platform company comprised of multiple VR and AR software & services start-ups, designed with the specific purpose of cultivating entrepreneurs in the VR/AR industry.
